General Information.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character, and if from another College, a regular dismission; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or, for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's Anabasis, two books; Homer's Iliad, two books; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's Commentaries, four books; Virgil's Æneid, six books with prosody; Cicero's Select Orations; Sallust's Catiline; and either Sallust's Jugurthine War or the Eclogues of Virgil; with the Latin Grammar and Arnold's Latin Prose Composition, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry complete.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be excepted in lieu of an examination in English Studies.

ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day. The degree of BACHELOR OF ARTS is conferred upon Students who complete this Course.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science, and the Arts.

The Following is a General View of the Studies of each Term.

FRESHMAN CLASS.

FIRST TERM,....
- Homer's Odyssey—*Owen's.*
- Livy's History—*Lincoln's.*
- Latin Grammar reviewed.
- Algebra—*Robinson's New University.*
- Rhetoric: Elocution—*Mandeville's Elements of Reading and Oratory.*
- Bible: Acts of the Apostles—*Barnes' Notes.*
- English Composition and Declamation.

SECOND TERM,..
- Horace's Odes—*Lincoln's.*
- Latin Composition—*Arnold's.*
- Homer's Iliad—*Boise's.*
- Greek Grammar reviewed—*Hadley's.*
- Geometry completed—*Robinson's.*
- Bible: Acts of the Apostles.
- English Composition and Declamation.

THIRD TERM,...
- Horace's Satires and Epistles—*Lincoln's.*
- Herodotus and Thucydides—*Mather's.*
- Greek and Roman Antiquities—*Bojesen's.*
- Plane and Spherical Trigonometry—*Robinson's.*
- Bible: Genesis—*Bush's Notes.*
- English Composition and Declamation.

SOPHOMORE CLASS.

FIRST TERM,....
- Demosthenes' De Corona—*Tyler's.*
- Navigation and Surveying—*Robinson's.*
- Tacitus' Germania and Agricola—*Tyler's.*
- Conchology—*Lectures.*
- Bible: Exodus—*Bush's Notes.*
- English Composition and Declamation.

SECOND TERM,..
- French Course—*Otto's Grammar; Knapp's Reader.*
- Analytical Geometry—*Loomis'.*
- Rhetoric: Style, with Exercises in criticism—*Blair's.*
- Study of Words—*Trench.*
- English Synonyms—*Crabb's and Graham's.*
- Bible: Joshua and Judges—*Coleman's Text Book.*
- English Composition and Declamation.

THIRD TERM,...
- Idyls of Theocritus—*Renier's.*
- Tacitus' Histories—*Tyler's.*
- French Translation continued.
- Differential Calculus—*Loomis'.*
- Bible: The Monarchy, etc.—*Coleman's Text Book.*
- English Composition and Declamation.

JUNIOR CLASS.

FIRST TERM,....
- Astronomy—*Snell's Olmsted.*
- Physics—*Atkinson's Ganot.*
- Integral Calculus—*Loomis'.*
- Æschylus' Prometheus Vinctus—*Paley's.*
- American History—*Lectures.*
- Bible: The Epistle to the Romans—*Barnes' Notes.*
- Forensic Disputation. Declamation.
- English Composition.

SECOND TERM,..
- Physics—*Atkinson's Ganot.*
- Plautus.
- Sophocles' Electra—*Mather's.*
- Greek Composition.
- Bible: The Epistle to the Hebrews—*Barnes' Notes.*
- Forensic Disputation. Declamation.
- English Composition.

THIRD TERM,...
- Logic—*Coppee's.*
- Rhetoric—*Whateley's.*
- German—*Whitney's Grammar and Reader.*
- Bible: The Prophetical Books and the Psalms.
- Forensic Disputation. Declamation.
- English Composition.

SENIOR CLASS.

First Term,....

- Political Economy—*Bowen's.*
- Philosophy of the Mind—*Bowen's Hamilton.*
- General Chemistry—*Eliot and Storer's.*
- Evidences of Christianity—*Butler's Analogy.*
- Debates and Essays on Questions in Mental and Moral Philosophy.
- Orations. Forensic Disputation.

OPTIONAL STUDIES.

- Political Philosophy—*Guizot's History of Civilization.*
- German Literature—*Schiller's Wilhelm Tell.*

Second Term,..

- Philosophy of the Mind—*Hamilton. Porter's Elements.*
- Moral Philosophy.
- Municipal Law—*Blackstone's Commentaries.*
- Evidences of Christianity.
- Essays on Themes in Law and History.
- Orations. Forensic Disputation.

OPTIONAL STUDIES.

- Analytical Chemistry—*Eliot and Storer's Manual.*

Third Term,...

- Agricultural Chemistry—*Johnson's* "How Crops Grow and Feed."
- Geology and Physical History—*Dana's.*
- Constitutional and International Law.
- Natural Theology.
- Orations. Forsenic Disputation.

OPTIONAL STUDIES.

- Metaphysics—*Plato's Phædo.*
- Philology—*Whitney's* "Language and the Study of Language."

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late Mr. Silas D. Childs, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction, both by lectures and recitations, in general Chemistry, will in accordance with the will of Mr. Childs, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices.

The facilities of the Laboratory are such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity.

Instruction may also be obtained in technical Chemistry by those not pursuing the regular College Course. The tuition for such students will be, $20 per term.

The Laboratory is furnished with facilities for conducting Chemical investigations and analyses.

Natural Philosophy.

The department of Natural Philosophy has recently been established upon an independent footing, and is being supplied with the most approved apparatus as rapidly as possible. Members of the Class of '66

have presented, at an expense of about $500, an induction coil, which with associated apparatus serves to illustrate the subject of induced electricity.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Department and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west side. The central building, is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer and Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Mr. Robert B. Tolles, of Boston, Mass. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars, by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of 2½ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburgh, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitudes of the Lake

Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with Hartnup's improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraph Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun August 7, 1869, Mr. EDWIN C. LITCHFIELD presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. LITCHFIELD. The telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallactically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when established in a proper location, it is thought, will be particularly useful for the exercises of students, who may make astronomy a special study.

The following twenty Asteroids were first discovered at the Litchfield Observatory.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz.:

1. 9,000 Specimens of Ores and Simple minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystalized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water, and Marine Shells.
9. 300 Specimens in Ornithology from China.
10. 13 Cases of Specimens in Entomology.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM, collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 226 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceæ*.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the Studies of the Year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. The interest of a Prize Fund of $1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking.*

2. The interest of a Prize Fund of $700, founded by CHARLES C. KELLOGG, Esq., of Utica, will be given, in one Prize, to any student of the Senior Class, except the successful competitors for the Clark Prize, the Pruyn Medal, the Head Prize and the Kirkland Prize, who shall excel in the composition and delivery of his *Commencement Oration.*

3. The interest of a Prize Fund of $500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory.*

4. The interest of a Prize Fund of $500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitors for the Head Prize, and the Kirkland Prize, who shall write the best Oration on "English and American Statesmanship."

5. The interest of a Prize Fund of $500 founded by Hon. FRANKLIN H. HEAD, of Elk Rapids, Mich., will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal, and the Kirkland Prize, who shall write the best Oration on "Alexander Hamilton and Thomas Jefferson." "The French Revolution and the Political Views of Alexander Hamilton."

6. The interest of a Prize Fund of $500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal, and the Head Prize, who shall write the best Oration on "The Bible of Supernatural Origin."

7. The interest of a Prize Fund of $500 founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry.*

8. The interest of a Prize Fund of $700 founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded, in the form of valuable books, to the two students in each of the three lower classes who excel in Elocution; valuable books will also be given to the two in each class who excel in *English Composition.*

9. The interest of a Prize Fund of $700 founded by relatives of the late Col. HENRY H. CURRAN, of Utica, will be given, in two Medals, to members of the Junior Class who excel in *Classical Studies.*

11. The interest of a Prize Fund of $500, founded by the late Rev. TERTIUS D. SOUTHWORTH, of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Natural Philosophy.*

12. The interest of a Prize Fund of $600, founded by HAMILTON B. TOMPKINS, Esq., of New York City, will be given, in two Prizes, to members of the Junior Closs who excel in *Mathematics.*

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are accessible to students.

A few gentlemen in the city of New York a few years since presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps; and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county; and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principle treaties in England and America, among which is the 'Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed statutes of the Colony and State of New York, including the Session laws from the earliest seriod, commencing with a copy of Bradford's printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

A new building for the Library is completed. In honor of the principal contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1843, the building is named the "*Perry H. Smith Library Hall.*" The alumni of the College in Illinois, Wisconsin, and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the Librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of

the alumni and students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors.

The College has received a legacy of Five Thousand Dollars from the late Hon. PETER B. PORTER, of the Class of 1826, as an endowment for the care and increase of the Library. Acknowledgment is due to the brothers of the deceased for making this bequest immediately available.

Examinations.

1. Of all the Classes, at the close of the First Term.
2. Of all the Classes, at the close of the Second Term.
3. Of the Senior Class, four weeks previous to Commencement.
4. Of the other three Classes, the week previous to Commencement.
5. Of Delinquents, at the beginning of each Term.
6. Of Curran Prize Competitors, on the last Thursday in March.
7. Of Candidates for admission at each Commencement and at the opening of each Term.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the First Wednesday in June.
3. Kingsley Prize Debate, Tuesday preceding Commencement.
4. Kingsley Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the last Tuesday in June.

Terms.

1. From the first Thursday in September, fourteen weeks.
2. From the second Thursday in January, twelve weeks.
3. From the third Thursday in April to Commencement.

Expenses.

Board, from $3.00 to $5.00 per week	$114 00	to	$190 00
Fuel and Lights	10 00	"	15 00
Rent for Rooms unfurnished, from $2 to $12 per term	6 00	"	36 00
Ordinary repairs: sweeping and heating the public rooms, $5 per term	15 00	"	15 00
Tuition, $20 per term	60 00	"	60 00
Amount	$205 00		$316 00

Special repairs according to damage committed.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee: to the Sophomore Class, $7; to the Junior, $10; to the Senior, $12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student have an honorable dismission from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Gratuates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is $5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparations also in College.

Teaching.

The Faculty keep a Registry of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

The interest of beneficiary funds, amounting to about $3,000 per year will be annually distributed to needy students; preference being given to those of Christian character and good scholarship.

During the past year, the College has received a memorial gift of $5,000, from Mrs. SARAH E. BEARD, Fayetteville, N. Y.

This has been invested as one of the beneficiary funds for the aid of deserving students, and named "THE CHARLES E. HALE FUND," in memory of a deceased son of Mrs. BEARD.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and twenty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

Scholarships.

Sixteen permanent Scholarships, of $1,000 each, have been recently established, and will be hereafter occupied by deserving students.

Hungerford Hall.

Through the liberality of JOHN N. HUNGERFORD, Esq., of Corning, the South College has been thoroughly repaired, after plans furnished by W. J. HAMILTON, of Utica. The renovated building contains two large recitation rooms, eighteen feet in height, with convenient keepers' rooms on the first floor. Each of the new dormitories has the best arrangements for lightning and ventilation. Outwardly the entire building has been restuccoed, and the chimnies and roof rebuilt in modern style. The cost of these improvements was about $15,000.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.

2. If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performance for that term.

3. For each exercise from which a student is absent and not excused, he is marked zero.

4. In estimating the value of class exercises, promptness and regularity are regarded as a merit; and all exercises, performed out of their regular time are liable to a discount, if the circumstances seem to require it.

Law Department.

REV. SAMUEL GILMAN BROWN, D. D., LL. D.,

PRESIDENT.

ELLICOTT EVANS, LL. D.,

Maynard PROFESSOR OF LAW, HISTORY, CIVIL POLITY, AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Precedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the result of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-

third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are $20 per term, or $60 per year, with a graduation fee of $5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principle subjects is: the Law of Contracts, in the Fall term; of Real Estate, in the Winter term; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

Memorial Hall and Art Gallery.

By the action of the Executive Committee, Rev. A. D. GRIDLEY and Prof. EDWARD NORTH have been appointed a Standing Committee, to have special charge of the Memorial Hall and Art Gallery.

It is proposed to enlarge the scope of the collections in Memorial Hall. Contributions are solicited of historical paintings, landscapes, plaster casts, figures in bronze, engravings, ancient coins, and other works of art, along with portraits of distinguished Alumni, and of Officers and Benefactors of the College. The following list of Portraits now in Memorial Hall, will indicate that a good beginning for an Art Gallery has been made, and that the way is auspiciously opened for additional gifts.

THE COLLEGE GROUNDS.

The Park in the midst of which the College buildings stand, embraces fifteen acres. The trees which adorn it were planted at different times. The Lombardy poplars were set out between the years of 1805 and 1812, by Rev. SAMUEL KIRKLAND and President BACKUS; the older elms in 1830, by OTHNIEL WILLIAMS, Esq., then treasurer of the College; and the groups of maples and ashes directly in front of the dormitories, in 1836, by President PENNY.

In the year 1853, the grounds were enlarged and laid out anew according to the modern English method. It was the design of the committee having this matter in charge, to obtain specimens of every tree and shrub supposed to be hardy in the climate of central New York. A Pinetum was also begun, in which a large variety of conifers have been planted. Labels have recently been affixed to many of the rarer trees and shrubs, showing the scientific name of each, together with its popular name and habitat. In those portions of the grounds daily traversed by the students, plots have been devoted to the culture of shrubs and flowering plants. Within a few years past, the campus has been invested with a new interest, by the planting of memorial trees by the successive graduating classes, and the erection of memorial stones, sun-dials, classic vases and garden seats.

It is the design of the Trustees and Faculty, to render this Park increasingly attractive. New trees and plants will be added to the present collection, as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College grounds are Prof. OREN ROOT, JOHN C. HASTINGS, Esq., and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

Of the trees which have thus far proved tender in this climate, the following may be named among evergreens:—

Cypress, Lawson's	Cupressus Lawsoniana.
Pine, Lofty Bhotan	Pinus excelsa.
Silver Fir, Cephalonian	Picea Cephalonica.
Silver Fir, European	Picea pectinata.
Spruce Fir, Menzie's	Abies Menziezii.
Yew, English	Taxus baccata.
" Irish	" Hibernica.
" Golden	" aurea.
" Silver	" argentea.

Of deciduous trees, the following have proved unreliable :

Ash, gold bark, weeping	Fraxinus aurea pendula.
Linden, fern-leaved	Tilia laciniata.
" silver-leaved, weeping	" alba pendula.
Magnolia, swamp	Magnolia glauca.

Of deciduous trees, which have proved hardy and desirable, we name the following :

Ash, American white	Fraxinus Americana.
" " black	" sambucifolia.
" European	" excelsior.
" " weeping	" pendula.
" willow leaved	" salicifolia.
" gold-barked	" aurea.
Beech, white	Fagus, sylvatica.
" blue	" carpinus.
" red	" ferruginea.
" purple	" purpurea.
" fern-leaved	" heterophylla.
" weeping	" pendula.
Birch, black	Betula lenta.
" red	" rubra.
" white	" populifolia.
" cut-leaved	" laciniata.
" " weeping	" laciniata pendula.
Butternut	Juglans cineria.
Buttonwood	Platanus occidentalis.
Chestnut, common	Castanea vesca.
Coffee tree, Kentucky	Gymnocladus canadensis.
Cotton-wood	Populus angulata.
Cypress, Southern, deciduous	Taxodium distichum.
Cucumber-tree	Magnolia acuminata.
Elm, American white	Ulmus Americana alba.
" " cork bark	" " suberosa.
" " red	" fulva
" English	" campestris.
" nettle-leaved	" urticifolia.
" purple-leaved	" purpurea.
" Scotch	" montana.
" narrow-leaved	" viminalis.
" Camperdown weeping	" pendula.
" Huntington	" glabra.
" Siberian	" Siberica.
Gingko, or maiden-hair tree	Salisburia adiantifolia.
Hickory, white	Carya alba.
Horn beam American	Carpinus Americana.
Horsechestnut, British	Aesculus hippocastanum.
" American	" Ohioensis.
" white	" alba.
" red-flowering	" rubicunda.
Ironwood	Ostrya Virginica.
Judas tree, American	Cercis Canadensis.
June-berry	Amelanchier Canadensis.
Larch, American	Larix Americana.
" European	" Europaea.

Linden, American (basswood)	Tilia Americana.
" English	" Europaea.
" " white-leaved	" alba.
Locust, yellow	Robinia pseud-acacia.
" thorn	Gleditschia triacanthos.
Magnolia, or cucumber-tree	Magnolia accuminata.
" or umbrella.tree	" tripetela.
" showy flowered	" speciosa.
Maple, sugar or rock	Acer saccharinum.
" scarlet	Acer rubrum.
" silver-leaved	Acer dasycarpum.
" mountain	Acer spicatum.
" black	Acer nigrum.
" striped or moosewood	Acer striatum.
" eagle-claw	Acer laciniatum.
" ash-leaved	Acer fraxinifolium.
" English	Acer campestris.
" Norway	Acer platanoides.
" sycamore	Acer pseudo-platanoides.
Mountain Ash, American	Pyrus sorbus Americana.
" European	" aucuparia.
" oak-leaved	" quercifolia.
" weeping	" pendula.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the day preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

At the last meeting of the Board of Trustees, Rev. Dr. KENDALL, in behalf of a committee previously appointed, reported a plan for the election of a number of the trustees by the alumni. After debate and some modification, the following plan was adopted, and will go into effect when approved by the Regents of the University of the State of New York.

PROPOSED AMENDMENT TO THE CHARTER OF HAMILTON COLLEGE.

Section 1. On the day preceding the next annual commencement of Hamilton College, at twelve o'clock, noon, an election shall be held in the Presbyterian church, in the village of Clinton, to choose four additional trustees of said college. Such election shall be by ballot, either in person or by proxy, and every graduate of the college of three or more years' standing shall be entitled to vote at such election. All graduates of the college of not less than ten years' standing and resident in the United States shall be eligible to this office, and the four persons elected by a majority of votes cast, shall possess the same powers and perform the same duties as the other trustees of said college. Immediately after the election, the trustees so chosen shall be so classified that the term of office of one of them shall expire with the close of Commencement day, the next year after an election, another the second, another the third, the other the fourth.

In case of a failure to elect at the first casting of the votes, further balloting shall forthwith take place, until an election shall be secured.

Section 2. On the day preceding each subsequent Commencement, an election shall be held to choose one trustee to fill the place of the person whose term of service is about to expire. The person so chosen by a majority of votes cast, shall hold his office for the term of four years, and all of the provisions of the first section of this ordinance relating to the qualifications of voters and the eligibility of candidates shall be applicable to all such elections, and whenever a vacancy shall occur from death, resignation, or any other cause, another person may be elected in like manner, to fill the office of trustee for the remainder of the term in which a vacancy has occurred.

Section 3. The trustees of the College shall appoint inspectors of all such elections, and may prescribe rules and regulations for conducting and the time and place of holding such elections, and canvassing the votes and declaring the result, as they may deem proper. They shall also provide for the classification of the trustees to be elected in pursuance of the first section of this ordinance.

Section 4. Thirteen trustees shall hereafter constitute a sufficient number for the transaction of business.
